

Artifact Explorer

Attention Libraries, Museums, and Information centres.

Do you have precious documents, artifacts, photographs, rare archived specimens, or pertinent sound files?

Artifact Explorer allows the public to view and study such memorabilia. Patrons will love the hands on experience of the touch screen, with the power to zoom in and out, drag to each detail, and listen to sound files.

Artifact Explorer is a cost effective solution to provide safe public access to your valuable information.

\$1200 inc GST
