

Video Explorer

Attention all Organisations, Exhibitors, Information Centres, Museums and Clubs.

If you have Video Media that you would like the public to have access to, Video Explorer provides the perfect solution.

Via a touch screen, your patrons can select from a main menu of up to 24 videos. They will enjoy the power to start, stop, pause, or loop each video.

Your selection of videos could include rare archived footage, promotional or educational material, or perhaps evacuation procedures.

Video Explorer's easy install and simple video content updates makes your display flexible, and suited to temporary exhibitions.

Price Inc. GST \$500

Features

- **No Restrictions** on copying
- Displays to all devices running a Windows operating system
- Uses multiformat videos - wmv, avi(s), or mpg(s)
- Install from or run videos via USB chips or Solid State Drives
